Capacity of Residence Halls is 485.

- **Number of Full-time; Non-student Employees Working on Campus is 98.**
- **Number of Part-time Non-student Employees Working on Campus is 72.**

ACCESSING CRIME STATISTICS FROM THE PENNSYLVANIA STATE POLICE (PSP)

As a result of Act 73 of 1988, the College and University Security Information Act, Thaddeus Stevens College of Technology is required to report to the Pennsylvania State Police specific statistics on the crimes that occurred on its campus during each calendar year. The Pennsylvania State Police must then publish these crime statistics in its Annual Uniform Crime report, *Crime in Pennsylvania*. These statistics can be accessed from the Pennsylvania State Police's web site:

CAMPUS SEX CRIMES PREVENTIOIN ACT (CSCPA)

Registering Sex Offenders on College Campuses

A federal law passed by Congress in October 2000 requires that offenders notify the State if they are a student at or work on the campus of an institution of higher education. An offender must register with the State if he or she is employed:

- With or without compensation**
- Full-time or part-time**
- For a period of more than 14 days**
- For an aggregate period exceeding thirty (30) days in a calendar year.**

According to the Campus Sex Crimes Prevention Act, convicted sex offenders must register with police if they enroll in classes or take a job at a college or university. In addition, schools can release sex offender registry information without fear of violating the Family Educational Rights and privacy Act of 1974 (FERPA).

The "Campus Sex Crimes Prevention Act" (section 1601 of [Public Law 106-386](#)) is a federal law enacted on October 28, 2000 that provides for the tracking of convicted, registered sex offenders enrolled as students at institutions of higher education, or working or volunteering on campus. It was sponsored by U.S. Senator Jon Kyl of Arizona and supported by Security On Campus, Inc.

The Act amends the [Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act](#) to require sex offenders already required to register in a State to provide notice, as required under State law, of each institution of higher education in that State at which the person is employed, carries on a vocation, or is a student. Requires that state procedures ensure that this registration information is promptly made available to law enforcement agencies with jurisdiction where the institutions of higher education are located and that it is entered into appropriate State records or data systems. These changes took effect October 28, 2002. These requirements are tied to state eligibility for certain types of federal grant funding and must be implemented through state law.

It also amends the [Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act](#) to require institutions of higher education to issue a statement, in addition to other disclosures required under that Act, advising the campus community where law enforcement agency information provided by a State concerning registered sex offenders may be obtained. These changes took effect October 28, 2002 and this notice will be a requirement beginning with the annual security report due October 1, 2003.

Lastly the Act amends the [Family Educational Rights and Privacy Act of 1974](#) to clarify that nothing in that Act may be construed to prohibit an educational institution from disclosing information provided to the institution concerning registered sex offenders; and requires the Secretary of Education to take appropriate steps to notify educational institutions that disclosure of this information is permitted. This amendment took effect on October 28, 2000.

CAMPUS SECURITY

When the College is not in session, minimum security coverage will be one guard working on each shift; thus, providing 24-hour coverage seven days a week.

CRITERIA AND TRAINING FOR SECURITY PERSONNEL

All guards must be fingerprinted by the Pennsylvania State Police and background investigated by both the Pennsylvania State Police and the Federal Bureau of Investigation in order to be cleared for employment with G4S Security.

The Vice President for Finance and Administration, prior to their initial assignment, will interview guards that are assigned to the College. If the Vice President for Finance and Administration has concerns about the individual's ability to function in the Stevens community he/she has the right to ask for and receive an acceptable replacement.

If a security person is selected and later is found unable to work effectively with the Stevens' population, the College reserves the right to have him/her replaced.

Specific training that security guards undergo on the Stevens campus is directed and monitored by the acting security supervisor designated for the Stevens' campus by G4S Security.

Daily and monthly meetings between the President, Vice President for Finance and Administration, Director of Student Services, and Director of Resident Life and security supervisors are aimed at continued familiarization with our student population, its profile, and how to most effectively handle problems, which confront them on a daily basis. This is an important supplement to the formal training received from the supervisor.

The College monitors performance of its facilities and security services by conducting random audits and/or meetings with students.

Criminal offenses should be reported to the Security Department but may be reported to the Vice President for Finance and Administration, Director of Student Services or Director of Residence Life.

***All incidents must be reported to the Security Department.**

POLICIES CONCERNING THE COLLEGE'S RESPONSE TO REPORTS

Upon receiving a report of an incident, Campus Security Officers are dispatched immediately to the site of the complaint. Security Officers prepare and submit written reports on all calls answered and if necessary, will contact the Pennsylvania State Police, City of Lancaster Police Department or other emergency response teams requesting their presence at the site. Officers are also required to provide follow-up reports at the conclusion of their investigations. Copies of reports are located in the offices of Finance and Administration, Student Services, and Security.

POLICIES CONCERNING CAMPUS LAW ENFORCEMENT

Authority of Security Personnel

Campus security at Stevens does not possess the authority to arrest individuals who are in violation of federal or state law. They do have the responsibility to apprehend such individuals in violation of state or federal laws and immediately contact the proper authorities to investigate the initial charges where appropriate.

A Security Officer, as a civilian, may arrest a person only after having been positively identified by that Security Officer. The power to arrest on evidence and probable cause rests solely with a City or State Police Officer. A Security Officer may not arrest a person on the basis of being positively identified by another person or based on suspicion alone.

A student or person at Thaddeus Stevens College of Technology subjects him or herself to a room, vehicle or personal search on the basis of probable cause. A search will consist of a faculty or staff member along with Security Personnel, except in emergency situations or as designated in the student handbook.

A Security Officer may use force against another person only to defend him or herself or another person. Once the perpetrator has been neutralized, or no longer hostile, the use of force is not permitted.

Relationship with State and Local Law Enforcement Agencies

The working relationship of campus security with state and local police forces has been a favorable one at Stevens. Normal operating procedure is that the initial contact department would be the Pennsylvania State Police. Lancaster City Police have also intervened in emergency cases.

A Police (City or State) Officer is called at the discretion of the Security Officer and/or at the request of the Administration, Faculty or Staff.

A Security Officer may not assist a Police Officer in an arrest or apprehension unless requested by the Police Officer. In addition, a Security Officer will yield all information to the Police Officer immediately upon request for an investigation.

**POLICIES WHICH ENCOURAGE ACCURATE
& PROMPT REPORTING OF ALL CRIMES**

All violations in opposition to state and federal law are reported to the appropriate outside agency and subsequent investigation and decision is then rendered by that body.

During an investigation or questioning session with a student, the Security Officer will document the time and day the request was made in the required “incident” report.

All relevant information (i.e. State Police Incident Number, etc.) will be included in the report.

CAMPUS SECURITY PROCEDURES AND PRACTICES

How to Make Special Requests

In order for an outside agency or individual to utilize the Stevens facilities, it is necessary for them to contact the College's Vice President for Finance and Administration. The Vice President for Finance and Administration and, if deemed necessary, the President, will determine whether or not the group will be permitted use of the facility.

All requests to use a particular room on campus must be submitted, in writing, to the Vice President for Finance and Administration, at least two weeks in advance of the date of the event. The Vice President for Finance and Administration will arrange to have Security unlock the room at the time requested.

Employees, other individuals and/or groups must sign a waiver (Hold Harmless Agreement) exonerating the institution from liability in the event of an accident. They must also provide insurance information holding the College harmless in the event of an accident or damage to person or property.

All requests to have additional Security Officers at special events must be submitted, in writing, at least two weeks in advance of the event.

Campus Escort Services

Campus escort services are available to both day and evening school students. Any student wishing to use this service should contact Campus Security (717-606-1564 or 717-286-4607) or the Vice President for Finance and Administration (717-391-6947) of the College to arrange for escort services. Campus Security is located on the first floor of the John E. Barley Multipurpose Activity Center. The Vice President for Finance and Administration's office is located on the first floor of the Mellor Building.

Students are issued and required to carry his or her student identification card at all times. Student ID cards are issued without charge when a student enrolls at the College.

If the ID card is damaged or worn out, the College will replace the card for free at a rate of one card per person per year. The card to be replaced must be shown or it will not be replaced for free.

For Voters' Registration, the College will replace the Student ID card for free, if the card does not include a date. The card to be replaced must be shown or it will not be replaced for free.

**CAMPUS SECURITY PROCEDURES
AND PRACTICES (cont.)**

Replacement cards are issued in case of loss at a charge of \$ 5.00 per card.

Temporary cards are issued at a charge of \$ 3.00 per card.

CRIME PREVENTION

Introduction

Thaddeus Stevens College of Technology is committed to protecting the lives and property of its faculty, staff and students through a well monitored Safety and Security Program on campus. The College contracts with a private security company to provide trained security officers to patrol the campus 24-hours a day. Security will respond to all requests for services and attend to all situations that affect the safety and security of faculty, staff, students and visitors.

During the past ten years new lighting has been installed throughout campus, ranging from mercury lights on seven different buildings to pole lighting on campus roadways and on or near campus buildings.

In addition, the installation of a gate on the northeast segment of campus has significantly reduced the flow of outside traffic throughout campus in an attempt to minimize thefts or other on campus incidents. The placement of speed bumps at strategic places on campus has also had a positive impact on reduction of outside traffic.

Also, the continual locking of a large gate on the southwest end of campus, which heretofore had been locked and unlocked on a daily basis, has reduced the amount of problems in that area of campus.

In the spring of 1995 a cul-de-sac was erected which significantly reduced outside traffic flow and added increased safety to the campus grounds.

In 2000, the College replaced all the cores in the Residence Halls with a Premium Keyway System that is not available to the public. All keys and cores must be purchased from the manufacturer and cannot be duplicated locally.

At the close of each academic year, the College removes and replaces all cores on interior doors to student rooms thereby assuring that a previous occupant cannot access dormitory rooms. As part of major renovations to our dormitories, all dormitory rooms have swipe card access in addition to a key system.

A parking shed was erected during the 2000-2001 academic year. The parking shed is located at a strategic location adjacent to the Hartzell Parking lot, which provides visibility to the campus community. When necessary, a security officer is assigned to the parking shed during the evening and/or early morning hours.

The telephones automatically dial Campus Security when the receiver is lifted from its cradle. The telephones are located inside the telephone box.

The College has contracted with an outside landscaping company to trim trees, shrubs, and bushes on a regular basis to assure a safe campus environment.

CRIME PREVENTION (cont.)

The College also replaced the old detex clock system with an electronic button/system that stores the dates and times of clock rounds by security officer. The system automatically generates a report of the rounds. The buttons have been located on every floor of every building on campus and at several exterior sites. The strategic location of the buttons assures that security officers walk the entire length of each hallway and stairwell, as well as, the entire course of each exterior round.

The College also purchased a software system that stores identification photos on-line. The system will be installed and operating during the current fiscal year.

The new Multi-purpose Activity Center (MAC) includes an electronic security system, which will require an ID card to access the facility. Eighteen cameras have been strategically placed within the facility. Six cameras have been placed on the exterior of the building and are capable of scanning and recording approximately 65% of the campus. The cameras are monitored by campus security and the building managers. In addition, the College expanded security services from 168 to approximately 500 hours per week.

Cameras are also located in the Jones Dining Hall.

Monthly security meetings are documented, minutes are distributed, and action items are recorded to assure a safe and secure working and learning environment.

The College has applied for and received federal funds through the Grants to Reduce Violent Crimes Against Women. (Award was made in October 2002.) The College also applied for an E-Grant through the Department of Community and Economic Development to obtain funds to refurbish and distribute personal computers to low-income families living in Lancaster City. Volunteers will provide Internet training to the recipients thereby providing a means of communication in times of both ordinary and extraordinary emergencies. The Internet connection will also serve as an emergency response tool.

During the summer of 2004, the College installed an electronic card access system on the main door of each dormitory, thus allowing students immediate entrance to the building after hours.

The College has updated its telecommunications system which allows the College to send text and voice messages to all telephones. This is accomplished through the use of Rave Alert software.

CRIME PREVENTION (cont.)

Several methods of communicating with faculty, staff and students during an emergency are deployed. These methods include mass notification through Voice Mail, Email, Rave Alert, Desktop Popups and Loud Speakers.

Established and supplied an Emergency Operations Center in the Mellor Building.

Recently, in 2012, the College, along with Homeland Security's South Central Pennsylvania Task Force, conducted an Active Shooter Drill on Campus.

In short, there is a sustained and continuous effort, from an administrative and maintenance standpoint, to make both procedural and physical changes to address security concerns.

CRIME PREVENTION (cont.)

What TSCT/Security Should Do

The College Administration increased exterior lighting on campus, added additional guards during late night rounds and trimmed trees and shrubs to make the campus a safer place for its students.

Recently, the College installed exterior emergency telephones at the main entrance to each building on both the main and branch campuses.

Extensive renovations to Armstrong, Herrington, Bourne, Brenner and Metzger Halls were completed in 2006. Renovations included a sprinkler system and a card access system to assure the safety of its residence.

In order to ensure the safety of its students, the College contracted with a local transportation company to provide shuttle service between both the Main and Branch Campuses. The service is provided free of charge to all students enrolled at the College.

In the future, the College intends to add lights at each exterior emergency telephone for easy identification during evening hours.

The College has upgraded its telecommunications system to Voice Over IP. The College purchased and installed, in each dormitory room, a special handsets that provides both voice and text messaging capability to all telephones

The College will continue to identify areas for improvement to ensure a safe and secure learning environment for its faculty and staff. Additionally, the College has embarked upon a comprehensive training program that includes several methods of mass notification should an emergency occur. These methods include Voice Mail, Email, Rave Alert, Desktop Popups and Loud Speakers.

The Safety & Security Department requests that criminal acts and unusual or suspicious activity be reported immediately. The Security Department has established a close working relationship with local law enforcement agencies as well as other social organizations in the community.

The Security Department conducts the preliminary investigations of non-violent crimes or offenses. However, the Security Department will request immediate response from the City of Lancaster Police Department or Pennsylvania State Police Law Enforcement Agencies on crimes in progress, crimes against a person or medical emergencies.

Parking

Thaddeus Stevens College of Technology provides parking facilities in an effort to meet the needs of faculty, staff, students, and visitors. Because of the limited space, the operation and parking of a motor vehicle on campus is a privilege. Drivers are expected to know and abide by all motor vehicle regulations and to assume all responsibility for any damage to vehicles while they are operated or parked on College property.

Parking regulations have been developed to encourage orderly parking, easy movement of traffic, pedestrian safety and access for emergency vehicles. The College Security Officers has the authority to ticket and tow vehicles that are in violation of College Parking Regulations.

All students who wish to park his or her vehicle on College property is required to purchase a parking permit on an annual basis. Students should park their vehicle in the Hartzell, Schwalm or MAC parking lots on the Main Campus. Students should park their vehicle in the Naval Academy parking lot on the Branch Campus, the Clark Street parking lot, and the Cottage Avenue parking lot.

Registration of your vehicle is processed through the College's Office for Finance and Administration (i.e. Business Office). If your vehicle is not registered you must obtain a parking permit at a cost of \$ 15 annually. The law also prohibits the selling or furnishing of alcoholic beverages of any kind to persons under 21 years of age by any agency or person. “Furnish” is defined as: “To supply, give or provide to, or allow a minor to possess on premises or property owned or controlled by the person charged” (Pennsylvania Crimes Code, 1986).
4. In addition, it is unlawful to misrepresent one’s age to any person to obtain alcoholic beverages or to represent to any person that a minor is of age.
5. Further, it is unlawful to transport liquor, which was not purchased, obtained, or possessed according to Pennsylvania law.
6. It is illegal to possess, manufacture, or sell a false I.D. card whether or not the card is used to obtain alcoholic beverages by using another person’s I.D. card.

The Commonwealth of Pennsylvania and local laws make it a crime to possess, sell, deliver or manufacture prescription drugs. Possession and personal use of prescription drugs, except as prescribed for use in accordance with the instructions of a licensed physician, is unlawful. Prescribed medications transported other than in the dispensing container may be considered illegal drugs. Additionally, a person found with any prescription medication in a dispensing container not listing that individual as the person for whom that prescription was provided or with a dispensing container containing medications other than that which is listed on the container would be subject to the same punishment as those found using, selling, or possessing prescribed medications.

NOTE 1: The Pennsylvania State Police will be summoned and will cite individuals accordingly.

NOTE 2: A student found guilty of a drug violation is not permitted in or around the residence halls at any time. Also, he/she will not be permitted on the campus during the weekend hours.

* If a student is a resident and he/she is retained in college, then he/she will be suspended from the dorms for the remainder of the semester and will be on probation for the same length of time. (An individual's return to the dorms at the outset of another semester will be subject to review and approval of the Director of Student Services and the Director of Residence Life.)

If the student is a commuter and he/she is retained in college, then he/she will remain on probation for the remainder of the semester and will not be permitted on campus after 6:00 p.m. or 20 minutes after the last class. (An individual's return to campus after 6:00 p.m., at the outset of another semester, will be subject to review and approval of the Director of Student Services and Director of Residence Life.)

DRUG OR ALCOHOL ABUSE EDUCATION PROGRAMS

A Drug and Alcohol Use Survey is conducted each year and the results are presented to faculty, staff and administrators after the start of the fall semester. (Not done 1998-99, not enough forms).

Representatives from various drug and alcohol community service providers present a program during freshman orientation for approximately one hour each year.

Students who experience problems in the dorm related to use of drugs and/or alcohol are disciplined via suspension for several days, and ultimately a loss of residence privileges.

Students are referred to a counselor for assistance with substance abuse problems, if they have requested such assistance, or if they have demonstrated through repeated problems in the classroom or dorm that they may have a problem. Counselor provides initial assessment and makes appropriate referral to community based provider, AA, NA, etc.

Students with underage drinking fines who have lost their license, or who are required to attend counseling are interviewed by the counselor so that local service providers can be accessed and the student can remain in school.

Various posters and handouts are available to students throughout the campus informing students about the hazards of substance use, and where to obtain help.

**TIMELY REPORTS TO THE CAMPUS COMMUNITY ON CRIMES
CONSIDERED TO BE A THREAT TO STUDENTS AND EMPLOYEES**

The most significant degree of communication specific to security matters occurs verbally at both an annual orientation program with incoming students and is reinforced in each to the dormitories during the first week of college and throughout the year in that same setting.

Security concerns and dissemination of information about the role of security are addressed at the joint dormitory council meeting, which occur five times per year.

PASSIVE RESISTANCE - If your life is in danger, tell your assailant you're menstruating or that you have a disease or illness. Tell your assailant anything that may stop him from attacking or give you a chance to escape.

Education Programs that Promote the Awareness

If you put yourself in a vulnerable position you may find yourself a victim. You can prevent sexual assault or date rape by being aware and being informed. Informational brochures on rape, acquaintance rape and other sex offenses are available at the Student Services Office, Dispensary or Women's Center.

The College is committed to the safety and welfare of the campus community and believes that the best protection against campus crime is an aware, informed, alert campus community. In addition, the College is committed to:

PROCEDURE FOR REPORTING SEXUAL ASSAULT

1. ACT IMMEDIATELY!

2. Get to a safe place.
3. Preserve all physical evidence! Do not shower; brush your teeth; or eat or drink anything. It is natural to want to clean up, but this may eliminate any legal evidence that substantiates the incident. If you change your clothes, you must put them in a paper bag (not plastic) to take to the hospital.
4. Contact a campus resource immediately. Consider: Campus Security, the Student Health Center, Director for Residence Life, Counseling staff, a Residence Hall Advisor, or the Women's Center. Phones for emergency use are located outside the following: The Multipurpose Activities Center, Armstrong Hall, Herrington Hall, Metzger Hall, Bourne Hall, Brenner Hall, the Schuler Learning Resources Center, the Schwalm Student Center, Jones Dining Hall, Hartzell Hall (south entrance), Hartzell Hall (north entrance), as well as Kreider, Leonard, and Snyder Halls. These phones will gain you direct access to security.
5. Contact the 24-hour Hotline at the Sexual Assault Prevention and Counseling Center (SAPCC), 1-800-392-7273.
6. Seek medical attention with the assistance of College staff and a SAPCC counselor. Lancaster General Hospital is highly recommended because of its expertise in sexual assault cases. Even if you feel fine, a medical exam will collect any physical evidence, generate a medical report and provide you with information on the prevention of possible STDs and pregnancy.
7. Report the incident to College officials. Complete a Sexual Assault Confidential Report form, which can be obtained from one of the above listed campus resources. An internal investigation will be conducted by the College's Affirmative Action Officer and the Director of Student Services, at which time follow-up services will be offered to the victim. Upon closure of the investigation, the victim will be provided with a letter summarizing the findings of the formal investigation and subsequent disciplinary action. If the victim is not satisfied with the outcome of the investigation, an appeal of the investigation will be brought to the discipline committee.
8. Consider filing legal charges against the offender. An investigation and disciplinary action by Thaddeus Stevens College of Technology does not take the place of nor prevent further prosecution by law enforcement agencies.

The nature and type of student housing at the Thaddeus Stevens College of Technology includes six residence halls, which allow for approximately 485 students.

Four (4) of our residence halls house only males and two (2) of our residence halls house only females.

Students who opt to live off campus do so of their own choosing and are subject to the laws of both the community and Commonwealth in these facilities.

The procedure utilized in making housing assignments has, as its foundation, the creation of as much of a heterogeneous population as possible in each of the five dormitories. This is to say that each year the Director of Student Services and the Director of Residence Life make assignments, which create a balance of individuals from different backgrounds, races and vocational/technical choices in each of the halls.

The underlying philosophy is that such a distribution is most conducive to the socialization and educational process on the Stevens campus.

As there are certain circumstances where students are totally incompatible with another student there are requests for reassignment, which are granted in the interest of all parties. This kind of reassignment is the exception rather than the rule, as in most instances we have found that given time and communication of concerns, students have been able to resolve their differences, whether they be with fellow students and/or staff members.

Students who make requests to reside with another individual prior to his/her matriculation at Stevens as indicated on a Housing Questionnaire forwarded from the office of Student Services, are granted due consideration and in most instances, honored.

Second year students are normally granted the opportunity to choose their roommate from the same dormitory and at the director's discretion are granted the request.

Regarding identification and admission of visitors into student housing facilities, the procedure is that the Stevens student indicates to the Resident Hall Monitor that he/she has a visitor present and at the same time is held accountable for the behavior of that guest while present.

Stevens students are advised and encouraged to approach individuals they do not recognize as fellow students, and ask them who they may be seeking or report them to the dormitory director or security for safety reasons.

Measures to secure entrances to student housing facilities include the following:

Dormitories are locked 24 hours each day. A student must swipe his/her ID card to gain access to the dormitories.

If a student returns without his/her ID card, a student may use the exterior emergency telephones to contact a security officer after hours.

The standard security features to secure doors and windows in student's rooms include in Herrington and Armstrong Halls, doors that have mortise lock sets with dead bolt features. Windows are standard double hung with window catches. Brenner, Bourne and Metzger Halls have doors with tubular dead latches and windows are standard double hung with window catches.

The type and number of employees, including security personnel, assigned to the student housing facilities are as outlined below.

Each dormitory is supervised by one Resident Hall Advisor.

Each evening Sunday through Friday starting at 4:00 p. m. one security guard begins his/her rounds throughout campus. A second begins at 5:00 p. m. through 1:00 a. m. As the evening progresses one guard spends a larger portion of his time circulation throughout the halls as well as monitoring other areas of campus.

**SECURITY INFORMATION SPECIFIC
TO CAMPUS HOUSING FACILITIES (cont.)**

Two guards work around the clock Monday through Sunday.

The Residence Hall Advisors provide additional coverage Monday – Thursday (4pm – 1am), Friday – Saturday (7pm – 4am), and Sundays (4pm – 8pm).

The standard security training program which security personnel presently undergoes, is that of on-the-job training which is monitored by the G4S Security Supervisor or Sergeant on duty at Stevens.

The type and frequency of programs designed to inform resident students about housing security and enforcement procedures include information published in the outset of the college year.

Dormitory advisors reinforce security measures in their daily contacts with students concerns they may observe on their various rounds.

During holidays and vacation periods some interns and workers remain in the residence halls; therefore, the security schedule changes in accordance with their departure. (Exceptions: Labor Day and Thanksgiving Holidays)

The housing of guests and others not assigned to the students housing must have clearance of both the residence hall advisor and the office of Student Affairs or the Director of Residence Life. The host student is then responsible for any inappropriate behavior on the part of the visiting student.

If the behavior of that visiting student is such that it is in violation of school rules and regulations he/she can be required to depart from campus immediately or face possible legal sanctions.
