FIRE SAFETY EDUCATION AND TRAINING

All Students are required to watch a Fire Safety Video. In addition, all resident students are required to attend a safety workshop conducted by the residence hall director. Residence hall directors have received additional fire safety training and will share relevant information with the students regarding living in a campus residence hall.

PROCEDURES FOR FIRE ALARMS

If a fire occurs, individuals are instructed to sound the building fire alarm by pulling the red alarm pull box and, if possible, call 911 then Security.

Once a fire alarm has been sounded, individuals should evacuate immediately using the nearest fire exit door or stairwell. Individuals should not use elevators because they may become inoperative due to the fire. If possible, abled persons should assist disabled persons in exiting the building. Disabled persons who cannot use stairs should wait in the stairwell until security or firefighters arrive. Individuals should notify security officers or fire authorities of the location of any disabled persons remaining in the building. Individuals should also notify security officers or firefighters if they suspect that someone may be trapped inside.

The fire alarm may not sound continuously. Even if the alarm stops, individuals should continue the evacuation. Warn others who may enter the building after the alarm stops.

Individuals should evacuate to a distance of at least 500 feet from the building and out of the way of emergency personnel. Individuals should not return to the building until instructed to do so by security officers or other authorized personnel.

When a fire alarm has been sounded or a fire is reported to Security, the security officer will initiate the notification procedures for contacting appropriate personnel.

HOW TO REPORT THAT A FIRE HAS OCCURRED

For the purpose of counting and disclosing fires in the College's annual fire statistics, individuals should notify the Campus Security Department at 717-606-1564 that a fire has occurred.
